ADAD NUMBERS AND COUNTY LOCATIONS

If you cannot upload the ADAD numbers and county locations file in the section provided, you must send 2 identical CDs containing the assigned 10 digit phone numbers and county locations (UPLOAD OR SEND 2 CDs – if there are <u>5 OR LESS</u> you may enter this in the 'Comment's section of the form within the affirmation section. If the dialer uses VOIP or are not specific 10 digit numbers on caller ID state so in the same section). The only acceptable file formats are .csv, .xls and .xlsx (MS Excel). You must format the data in the proper columns, or the upload process will notify you that your file is not formatted correctly.

The format for uploading the 10 digit ADAD numbers and county locations is as follows:

FIRST COLUMN ('A') IS THE 10 DIGIT PHONE NUMBER, THE SECOND COLUMN ('B') IS THE COUNTY NAME.

No other data should be in this file except the 10 digit numbers and name of the county (no titles, row headings or any spaces). Save the file as <u>vour Company ID/PUC Tracking number that</u> begins with AD and can be found at the top left of the page after you login. Do not add anything else to the file name (e.g. Year or month etc.).
